Derry, NH 03038

Subject Derry - Public Water System: Morningside Drive Water Association  
(EPA #0612050)

Dear Mr. Harris:

The records of the NH Department of Environmental Services (DES) show that Morningside Drive Water Association water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system supplying 15 or more services, or 25 or more people for 60 or more days per year. As such, the water system owner is required to submit chemical samples according to the system's established sampling schedule to the State laboratory or a State-certified laboratory in compliance with NH Administrative Rule Env-Ws 326. Pursuant to Env-Ws 351, the failure to submit a chemical sample within the assigned sampling quarter requires that public notice of such failure be given to all consumers.

DES records show that the subject water system failed to submit the following chemical sample results for the following monitoring period (calendar quarter).

**Quarter 3 – 2002 – Inorganic Chemicals (IOC) and Radiologicals (RAD)**

DES believes the monitoring/reporting deficiencies can be addressed by taking the following actions:

**By February 18, 2003**, submit the IOC and RAD samples as "make-up samples" to the State laboratory or a State-certified laboratory. Please use the enclosed analysis result form when submitting the samples to your laboratory.

**By February 18, 2003**, provide public notice of the failure to submit the Quarter 3–2002 IOC and RAD samples, as specified on the enclosed form; and

**By March 4, 2003**, provide proof of public notice to DES, as specified on the enclosed form.

**Letter of Deficiency #WSEB 03-010**  
Morningside Drive Water Association

Page 2 of 2

In the event compliance is not achieved within this period, DES may take further enforcement action. These actions include issuing an order requiring the deficiencies to be corrected, initiating an administrative fine proceeding, and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

The proof of public notice as requested above should be addressed as follows or faxed to (603) 271-5171:

Jeanne D. Lawson  
Department of Environmental Services  
Water Supply Engineering Bureau  
6 Hazen Drive, PO Box 95  
Concord, NH 03302-0095

Please contact Jeanne Lawson at (603) 271-6703 or by email at [jlawson@des.state.nh.us](mailto:jlawson@des.state.nh.us), if you have any questions regarding this letter.

Sincerely,
